November 2026

Changes to the Master's Programme in Economics

Dear Students,

We would like to inform you that a decision has been made **to discontinue the Master of Science programme in Economics in its current form**. A new programme in Economics, with two different profiles, will start in autumn 2027.

What does this mean to you?

- Examination and re-examination opportunities will be offered three times in total during your programme, according to the course syllabi. I.e. the Graduate School will offer you three opportunities to finish a course.
- Dates for written exams are published in Ladok. Other examination dates are published in Canvas for each course.
- Once the final examination opportunity for a course has passed, no further examinations will be offered for that course.

What do you need to do?

We strongly encourage you to review your study progress and carefully plan your remaining studies, since it is your responsibility to ensure that you complete any outstanding courses and examinations within the specified timeframe. Please pay particular attention to the dates of the final course offerings and examination opportunities, as these may differ between courses.
If you have any questions about your remaining studies or need guidance on how to plan your studies, please contact the study counsellors. Graduate School | Student Portal
