

Hello friends, here is a quick guide to laundry.

General instructions: You choose two machines at a time. You only book the washing machines, the dryers are free to use afterwards. There are also dryer-cabinets that are free to use! Please note that you need to buy your own detergent, but booking and using the washing machines are free of charge!

1. Find a laundry room that you have access to. You may have to try some of them.
2. Locate the big metal box on the wall.
3. Right next to it, there should be instructions on how to use it. But in simple terms:
 - a. Show your blue tag on to the monitor as according to the picture.
 - b. Select "BOKA" (which means "book"). Select the two washing machines that you want to use.
 - c. Choose the timeslots you prefer, navigate via the yellow arrow-buttons. (pro-tip: book two time-slots with the same washing machines right after one another if you want to wash a lot!)
 - d. When you want to access the washingmachines, show your tag on the monitor again. Instead of choosing the "BOKA" option, use the yellow arrows to go to the "ÖPPNA" (open) option, which will open the machines for usage.

If anything is unclear, there are better instructions right next to these big boxes!

Hope this helps! :)
