- Rules of Evidence
- Tort Law
- Intro to British civilization

Studies

A lot easier, no books, shorter exams, no reading

Arrival, orientation and housing

We were told to be there on a Thursday for a mandatory meeting which in my opinion is completely unnecessary, it would have been a lot better to just have that the same week the courses starts to save some money on rent. Settling in was no problem, we had an apartment through airbnb and everything went ok.

Finances

The rent was very high in Paris, 2000 € for a small one bedroom apartment but apart from that everything was pretty much the same, food was a little bit cheaper.

Life in a new country/culture

I had a great semester in Paris but not because of the exchange, there were really few school activities and not a "class" so I didn't meet any friends through school. I made friends in Paris through facebook-groups.

Overall exchange experience

It was good.
