

Korea University

Exchange start semester	Autumn semester 2023
Study level	Graduate (Master)
Home faculty at GU	Faculty of Science
Studies at GU	Molecular Biology

Courses during exchange

- Cancer Biology
- Matrix Biology
- Systems Neuroscience
- Vascular Biology

Main difference compared to studying at GU

That we are taking many courses at the same time at Korea University and that the lectures are mandatory.

Arrival, orientation and housing

It was very easy to just take a taxi to the dorms.

Finances

Much cheaper to eat out, but vegetables and fruits are really expensive

Life in a new country/culture

Very good

Overall exchange experience

I would do it again, so it was good
