

Kyungpook National University, South Korea

Exchange semester	Autumn semester 2025
Study level	Undergraduate (Bachelor)
Home faculty at GU	IT-Faculty
Studies at GU	Software engineering and management

Courses during exchange

- Modern Korean Society
- Cultural life of Korea
- Geography of America
- Korean History
- Korean Language 1

Studies

There is a much larger emphasis on in class attendance and less on individual work outside of classes.

Arrival, orientation and housing

The university had multiple systems set in place to introduce and meet Korean students which meant that a lot of people had students meet them at the train station to help them settle in.

Finances

It is quite a bit cheaper, especially if you stay at the school dorms.

Life in a new country/culture

It's been very rewarding, there are a lot of activities you can engage yourself in if you look for it. There are a lot of club activities and things to do around campus.

Overall exchange experience

It's been very fun, I've met a ton of good friends and I'm honestly feeling quite sad that its nearing the end.
