

Universidade Nova de Lisboa

Exchange semester	Autumn semester 2025
Study level	Undergraduate (Bachelor)
Home faculty at GU	IT-Faculty
Studies at GU	Information Systems: Digitalisation of Society

Courses during exchange

- Construção de Conhecimento Digital e Práticas Sociais
- Do Computador para a Sociedade: Perspetivas Cruzadas de Produtores e de Utilizadores
- História da Tecnologia e da Engenharia
- Informática para Ciências e Engenharias
- Introdução à Programação

Studies

There was more Classroom hours than at GU, more similar to Swedish high school in that way.

Arrival, orientation and housing

Overall everything went well, the welcoming week was very nice. The only issue was getting my schedule because they had issues with register students in the Universities system. It took over a week, which postponed seeing my timetable conflicts and caused some stress.

Finances

Accommodation was about the same price but basically everything else was cheaper like public transport, food etc. They also had a cafeteria at campus where you could buy lunch for only 3 euros making it very affordable for students. I did not have to purchase any books, the professors always gave us the material online which also made it cheaper than at GU.

Life in a new country/culture

Great, I had so much fun, learned a lot and grew as a person.

Overall exchange experience

Overall it was an amazing experience. It was quiet intense especially the studies and I did fail one course which was not optimal but I'm still very thankful that I got to go on the exchange.
