

# Pompeu Fabra University

Exchange semester	Autumn semester 2025
Study level	Undergraduate (Bachelor)
Home faculty at GU	IT-Faculty
Studies at GU	Systemvetenskap

## Courses during exchange

- Global Inequalities
- Contemporary Thought
- Corporate Social Responsibility and Business Ethics
- Social Psychology of Organizations

## Studies

The biggest difference was that most of the classes were mandatory, and that everything we did in class were a part of our final grade.

## Arrival, orientation and housing

The arrival was fine. We got information that the semester started 15th of september, but actually there were only one introduction class then and then the real classes started 25 of september. That could be more clear.

## Finances

The housing were more expensive, but living in general (food, restaurants, experiences) were cheaper than in sweden.

## Life in a new country/culture

Very good!

## Overall exchange experience

Very good!
