Studies

The biggest difference was the fact that you study multiple courses at the same time and that you have exams at the end of the year, instead of taking multiple exams during the year and taking one course at a time.

Arrival, orientation and housing

It went quite swiftly and I tried to explore to get to know the city. I tried doing things that a local would do in the beginning, like visiting the grocery store and taking walks around my neighbourhood.

Finances

At home I live with my parents and I don't pay for anything, so the living costs were quite different for me. Grocery prices were not that different though a bit more expensive.

Life in a new country/culture

I liked the exchange, I love Denmark as a country. Although I wanted to do my exchange in Copenhagen, I loved Odense, and it surprised me a lot.

Overall exchange experience

Good, I liked it.
